01 — ОБЗОР

Executive Summary

YogaFerma is an operating organic farm spanning 1,000 hectares in Russia's Tambov Region, cultivating crops without synthetic chemicals for over 10 years. In 2025, the project launched the $AUM token on the TON blockchain — the first RWA token in Russia backed by real physical assets of an agricultural enterprise.

The core idea is simple: 5% of all farm profits go toward rewarding long-term holders and buying back tokens from the market. Every field operation is recorded on the blockchain and confirmed with video reports.

$AUM is a digital share in a real agricultural business with a transparent history, verifiable data, and a clear economic model.

02 — FOUNDATIONS

Introduction & Philosophy

Who We Are

The project founder is Vyacheslav Vasylyuk, a hands-on farmer with agricultural experience since 2008. For over 10 years he has been running a farm in the Tokarevsky District of Tambov Region, following organic farming principles: no synthetic chemicals, no GMOs, no antibiotics.

In September 2025, the farm received an official organic certificate under GOST 33980-2016 — reg. number OS RU.2509.C0166, valid until September 12, 2028.

Philosophy

The project name comes from the Sanskrit syllable "Aum" (ॐ) — a symbol of mindfulness, harmony and unity. The philosophy of ahimsa (non-violence) underlies everything: our relationship with the land, animals, products, and people.

> "*We don't chase maximum yields at any cost. We work so that the land stays alive for future generations.*"

© 2025 YOGAFERMA • ALL RIGHTS RESERVED

Why Blockchain

Blockchain solves the main problem of organic farming — trust. Recording every agricultural operation in an immutable ledger with video confirmation from the fields makes organic claims verifiable by anyone in the world.

03 — РЫНОК

Market Analysis

Global Organic Market

The global organic farming market shows steady growth. According to FIBL (2024), over 96 million hectares worldwide are under organic agriculture — 26.6% more than in 2021. By 2025, organic products are expected to reach up to 5% of the world market.

Organic Market in Russia

- Certified organic producers grew 10x in 5 years — to 218 enterprises (2024)
- Organic and health food market grows ~10% annually
- Russian government approved the Organic Production Development Strategy until 2030
- Target market size by 2030: 114.5 billion rubles; 6x consumption growth
- Organic holds less than 4% of Russia's food market — the market is just forming
- Large organic farms (1,000+ ha) in Russia are extremely rare — YogaFerma holds a unique position

RWA Token Market

- RWA token market cap: **$19.3B** at end of Q1 2026 (CoinGecko)
- Total RWA TVL: **$31B+** in 2026 — 4x growth since early 2025
- Sector growth: **+256.7%** in 15 months — one of the fastest-growing in crypto
- BlackRock, Franklin Templeton, Ondo and other institutions — major segment players
- Agriculture stands out as especially attractive: fundamental asset, sustainable demand

There are no YogaFerma analogues on the TON blockchain. This is a unique niche.

04 — ПРОЕКТ

About YogaFerma Farm

Key Characteristics

PARAMETER	VALUE
Location	Tambov Region, Tokarevsky District, Semyonovka
Land Bank	~1,000 ha under management
Organic Farming Certificate	GOST 33980-2016 (OS RU.2509.C0166)
Valid Until	09/12/2025 — 09/12/2028
Revenue 2024	14–16 million rubles (~$160K)
Harvest 2025	1,300+ tons

Crops & Yields

CROP	YIELD	CERTIFICATE	PURPOSE
Winter Wheat	4.0 t/ha	Certified Organic	Flour, grain
Spelt Wheat	First year	Certified Organic	Premium flour
Sunflower	2.0 t/ha	Certified Organic	Oil, seeds
Soybean	2.5 t/ha	Certified Organic	Grain
Barley	3.0 t/ha	Pending 2026	Feed, grain

Agricultural Methods

- Black fallow — primary method for soil preparation and restoration
- Crop rotation: fallow → grains → sunflower → fallow
- Mechanical weed control: harrowing, cultivation, disking
- Biological protection: preserving natural predators of pests
- Cover crops (green manure) for soil fertility restoration
- Zero synthetic fertilizers, herbicides, fungicides, or insecticides

05 — АКТИВ

$AUM Token

What is $AUM in Simple Terms

Imagine the farm has its own "digital share" — a small stake in the project that you can buy and hold. That is our $AUM token. It exists on the TON blockchain — a secure, open database where all records are transparent and tamper-proof.

As the farm grows, this share becomes more valuable. And we share with those who support us: **5% of all farm profits each season go to token holder rewards and token buybacks from the market**.

You don't need to understand crypto to get the idea: you support a real farm — the farm shares its profits. Everything is transparent and verifiable on the blockchain.

Technical Parameters

PARAMETER	VALUE
Ticker	$AUM
Blockchain	TON (The Open Network)
Launch Platform	BLUM
Total Supply	1,000,000,000 (fixed)
Circulating Supply	~192,000,000 tokens
Team Lock	660,000,000 (66%) on TONRaffles
New Token Minting	IMPOSSIBLE
LP Lock	Burned (50M in pool)
TGE Date	February 2025
Current Market Cap	~$300,000
Peak Market Cap	$560,000

Token Distribution

© 2025 YOGAFERMA • ALL RIGHTS RESERVED

CATEGORY	AMOUNT	SHARE	STATUS
Team (locked until 2026+)	660,000,000	66%	TONRaffles lock
DEX (available to buy)	48,000,000	4.8%	STON.FI
Liquidity (LP)	50,000,000	5%	LP Lock burned
Participant Lock (1 year)	50,000,000	5%	Locked until Fall 2026
Free Circulation	~192,000,000	~19.2%	Holders
Total Supply	1,000,000,000	100%	Fixed Forever

66% of team tokens are locked on TONRaffles — the team physically cannot sell its share. This is a long-term project.

Token Protection

- Contract modification rights **revoked** — token parameters cannot be changed
- **660M team tokens** locked on TONRaffles
- **50M in LP** — Lock burned, liquidity protected from withdrawal
- Fixed supply — token inflation is impossible
- Public project wallet address — all transactions are open on the blockchain

Exchanges

- **STON.FI** — main exchange, DEX on TON
- **Blum** — launch platform
- **Swap.Coffee** — additional liquidity

© 2025 YOGAFERMA • ALL RIGHTS RESERVED

06 — ЭКОНОМИКА

Holder Mechanics

Rewards & Buyback

5% of all farm profits each season → holder rewards and token buyback from the market

Distribution mechanics:

- Holders who lock tokens for 365+ days receive rewards proportional to their share
- Unclaimed portion goes to token buyback from the open market
- Bought-back tokens reduce market supply — deflationary effect

Reward Formula

(Your tokens ÷ 1 000 000 000) × 100 = Your share %

Example: 10,000,000 locked tokens = 1% of the distributed amount. With a payout of $5,000, you receive $50.

How to Participate

- Buy $AUM tokens on an exchange (STON.FI, Blum, Swap.Coffee)
- Lock tokens on **TONRaffles** for a minimum of 365 days
- Wait for harvest sale — payouts happen after the sale
- Receive rewards in $TON to the locking wallet

Historical Payouts (2025–2026 Season)

The harvest was sold in 3 stages, with token buyback after each:

© 2025 YOGAFERMA • ALL RIGHTS RESERVED

STAGE	PERIOD	EVENT	STATUS
1	December 2025	Sunflower harvest	Paid
2	January 2026	Wheat harvest	Paid
3	May–June 2026	Remaining harvest	Pending
TOTAL	2025–26 Season	Buyback + rewards	~$9,000

Additional Privileges

- Discounts on farm products
- Priority in harvest shipment
- Pay for farm retreats with $AUM tokens
- Private chat for holders of 5,000,000+ tokens
- Farm workers receive bonuses in $AUM tokens

© 2025 YOGAFERMA • ALL RIGHTS RESERVED

07 — ПРОЗРАЧНОСТЬ

Smart Agronomy

Smart Agronomy is a system for recording field operations on the TON blockchain. Every agricultural action is written into an immutable ledger and confirmed with video reports.

Where to Verify

- **Project wallet on TON:** EQCpkuD6gpAdXWJDOLKyxx6ngDDcXz2AS85jWyDWa3qTVXYQ
- **TON Explorer:** tonviewer.com/EQCpkuD6...3qTVXYQ
- **Video reports by crop:** rutube.ru/channel/22842301/playlists/
- Separate playlists: Spelt 2026, Wheat 2026, Barley 2026, Sunflower 2026

What Gets Recorded on Blockchain

- Date of the operation
- Type of work: sowing, harrowing, disking, harvesting
- Field number and area processed
- Crop or treatment applied
- Link to video report from the field

> *04.04.26 | Посев: Фацелия | Поле №2 | 5 Га | Органика 100% | youtu.be/xxx*

Why This Matters

- Blockchain records **cannot be altered or deleted** retroactively
- Anyone can verify the history via TON Explorer
- Video confirmation prevents fake entries
- This is **verifiable organic farming**, not a marketing claim

08 — ПОЗИЦИОНИРОВАНИЕ

Competitive Advantages

Comparison with Typical RWA Projects

CRITERION	YOGAFERMA $AUM	TYPICAL RWA PROJECT
Real Asset	1,000 ha organic farm	Real estate / finance
Transparency	Blockchain + daily videos	Reports and audits
Publicity	Founder personally runs the channel	Often anonymous team
Ease of Entry	Buy — hold — earn	Complex contracts, KYC
Payouts	From real harvest	Interest rates
Blockchain	TON — low fees	Ethereum — expensive gas
Analogues on TON	None	—

Position in Russian Organic Market

- **1,000 ha** — one of the largest organic farms in Russia
- **10+ years** chemical-free — proven track record, not a startup
- Official certificate **GOST 33980-2016**
- Member of the **Russian Organic Farming Union**
- Active participant in **Russian agricultural forums**
- Supported by **local and regional administration**

09 — ФИНАНСЫ

Financial Model

Current Metrics

METRIC	VALUE
Farm Revenue (2025)	14–16M rubles (~$160K)
Harvest (2025)	1,300+ tons
Buyback + rewards (2025–26)	~$9,000
Forecast marketplace revenue (2026)	~1,000,000 RUB
Peak Market Cap $AUM	$560,000
Market Cap Target (1)	$1,000,000
Market Cap Target (2)	$5,000,000

Example: Flour, 10-ton grain batch

ITEM	AMOUNT
Grain (10,000 kg × 15 RUB/kg)	150,000 RUB
Delivery + processing (9,000 kg flour)	560,000 RUB
Packaging + logistics	110,000 RUB
TOTAL COSTS	~820,000 RUB
Revenue (9,000 kg × 250–280 RUB/kg)	2.25–2.52M RUB
Net Profit	600K–1.1M RUB
MARGIN	38–48%

10 — ПЛАНЫ

Roadmap

2025 — Launch (completed)

- **February 2025** — TGE, $AUM token launch, team formation
- **February 2025** — verification, DEX listing on STON.FI, first media
- **March 2025** — 6 industry media, joined Russian Organic Farming Union
- **September 2025** — received organic certificate GOST 33980-2016
- **November 2025** — 1,300+ ton harvest, 660M tokens locked on TONRaffles
- **December 2025** — first holder payouts

2026 — Growth

- **January 2026** — second payouts, peak market cap $560,000
- **May–June 2026** — third payout stage
- Launch of flour and ghee sales on Ozon and Wildberries marketplaces
- Listing on new exchanges
- Expanding organic certification to barley, oats, and dairy farm
- Twitter/X launch, expanding international presence

2027 — Scaling

- Expansion to 2,000 ha
- Partner farm network (5–10 farms)
- Entry into federal retail (VkusVill, Magnit)
- Full QR traceability of every product batch
- Token market cap $1,000,000+

11 — ЛЮДИ

Team

ROLE	DESCRIPTION
Vyacheslav Vasylyuk, Founder	Hands-on farmer since 2008. Manages 1,000 ha. Personally runs video reports from the fields on YouTube, TikTok, VK, RuTube.
Agronomist	Smart agronomy, blockchain tracking of field operations, quality control, certification.
Blockchain Developer	$AUM token, TON integration, QR landings, product traceability system.
Marketing & Content	Social media, field video content, marketplaces, community management.

Project Audience

PLATFORM	AUDIENCE	NOTE
TikTok	1,000+	1 video — 500K views in recommendations
VKontakte	1,000+	Active clips in recommendations
YouTube	150+	Full video reports from the fields
Telegram	450+	Channel + community chat
RuTube	Active channel	All content mirrored
Token Holders	1,000+	—

12 — ПРАВО

Legal Position

The project operates under KFH IE Vasylyuk Vyacheslav Nikolaevich (INN: 771365060491). The $AUM token is not a security or any other regulated financial instrument under current Russian Federation law.

Currently, Russia has no specific legislation regulating the issuance and circulation of crypto assets in the format of farm tokens. The project does not violate any current Russian laws.

YogaFerma is fully prepared for legalization under any future regulatory requirements as digital asset legislation develops.

© 2025 YOGAFERMA • ALL RIGHTS RESERVED

13 — ОСТОРОЖНО

Risks

Agricultural Risks

- Weather conditions and crop failure (drought, frost, excessive rainfall)
- Fluctuations in grain and organic product market prices
- Changes in organic farming legislation

Cryptocurrency Risks

- High token price volatility
- Risk of total loss of invested funds
- Changes in crypto asset regulation in Russia and globally
- Limited trading volume (liquidity risk)

Risk Mitigation

- Tied to a real physical asset (1,000 ha farm)
- Fixed supply — token inflation is impossible
- 66% team tokens locked on TONRaffles — dump protection
- LP Lock burned — liquidity protected
- 10+ year farm history — not a startup from scratch
- Open reporting and blockchain tracking of all operations

© 2025 YOGAFERMA • ALL RIGHTS RESERVED

14 — ПОДТВЕРЖДЕНИЕ

Organic Certificate

In September 2025, YogaFerma farm received an official certificate of conformity from the voluntary certification system "Organic System" ROSS RU.32129.04OSI0.

PARAMETER	VALUE
Reg. Number	OS RU.2509.C0166
Registration Date	09/12/2025
